More about this page. The intention here is to develop a resource about garden plants that grow in Qld gardens (or could potentially be grown), concentrating on the best plants for the subtropical and tropical regions.

Plants for Qld gardens (especially Brisbane and SE Queensland)

The Giardini Botanici Hanbury, also known as Villa Hanbury, are major botanical gardens operated by the University of Genoa.They are located at Corso Montecarlo 43, Mortola Inferiore, several km west of Ventimiglia, Italy.

Giardini Botanici Hanbury - Wikipedia

Brief history. The earliest beginnings of the gardens go back to 1779, when the Accademia dei Regi Studi created the chair of "Botany and medicinal properties". A modest plot of land was allocated to develop a small botanical garden dedicated to the cultivation of plants with medicinal benefits, for the twin objectives of general learning and improving public health.

Orto botanico di Palermo - Wikipedia

On December 4, 2017, the Thomas Fire burned the entirety of the Gardens. Nearly every plant was affected. During 2018, we've been hard at work, removing the burned foliage, replacing most of the plants, and repairing the damaged walkways.
